Overview: An amazing finca with a large unfinished house on 2 levels with the most breath taking sea, mountain and country views that one could imagine. Nestled in the hills above the town and beach of La Cala de Mijas at just a 10 minute drive away and Calanova golf club and it's club house restaurant at just a 2 minute drive. There is also a 3 bed 2 bath wooden house on the land with it's own pool and terrace. Part of the main house dates back to 200 years ago and has been legally extended and registered to over 300 square metres including terraces. Here you have a blank canvas to create your dream home or even a restaurant, equestrian centre, B&B or similar. There is 29.000 square metres of land with great views from all around and with easy access. There is an old mill which used to pump the water and could be restored as seen in the main photo. The electricity is run by solar panels and the water comes from a well. For those who want to take on a project and live in the freedom of the countryside and yet be so close to the amenities of the coast, this would be perfect!
