This remarkable plot offers a canvas upon which to create your dream Mediterranean villa, blessed with truly magnificent and utterly unobstructed panoramic views of both the shimmering Mediterranean Sea and the majestic, undulating mountain ranges that frame this idyllic landscape.

This is more than just a plot of land; it is an investment in an unparalleled lifestyle and a promise of perpetual serenity. Discerning buyers will appreciate the meticulous planning that ensures the enduring value and privacy of this unique property. The two adjacent plots have already been meticulously sold, signifying a growing, exclusive community. Crucially, this exceptional plot benefits from backing directly onto a protected green zone. This strategic positioning guarantees that no future construction can ever impede your breathtaking vistas, safeguarding the invaluable panoramic outlook for generations to come. Your privacy and uninterrupted views are perpetually secured, a rarity in today's developing market.

Prime Location and Generous Proportions

Encompassing a substantial area of 1,401 square meters, this generously proportioned plot provides ample space for an expansive luxury residence and exquisite outdoor living areas. Its strategic location within La Cala Golf is highly advantageous, situated in close proximity to the golf clubhouse – a hub of activity and convenience for golf enthusiasts. The plot benefits from a full suite of essential services, ensuring a seamless construction process and comfortable living: reliable electricity connections, advanced telephone infrastructure, abundant water supply, and efficient sewage systems are all readily available. Furthermore, residents enjoy the ultimate peace of mind with 24-hour on-site security, a hallmark of the premium living experience offered at La Cala Golf.

Design Your Bespoke Mediterranean Villa

The current building regulations for this plot are highly favourable, allowing for the construction of a magnificent detached villa with a total buildable area of 265 square meters. This generous allowance provides immense flexibility for designing a spacious and luxurious interior, perfectly tailored to your individual preferences. Beyond the internal living space, you are permitted to incorporate expansive uncovered terraces, ideal for al-fresco dining, sunbathing, and entertaining against the backdrop of your stunning views. A private swimming pool, a quintessential element of the Costa del Sol lifestyle, can be seamlessly integrated into your design, offering a refreshing oasis. Additionally, regulations permit the creation of a substantial basement area, which can be transformed into anything from a home cinema, a private gym, a wine cellar, or additional guest accommodation, further enhancing the functionality and value of your future home.

The architectural possibilities are further enhanced by the maximum height allowance of 7 meters, which elegantly permits the construction of a two-storey villa, complemented by the invaluable basement area. This allows for grand designs, soaring ceilings, and distinct living zones. The advantageous orientation of the plot – East, South East, and South – ensures optimal sun exposure throughout the day. Imagine basking in the glorious morning sun as it rises over the Mediterranean, enjoying bright, warm days, and witnessing spectacular sunsets from your perfectly positioned terraces. This orientation maximizes natural light, enhances energy efficiency, and provides an ideal climate for indoor and outdoor living year-round.
