Guadalmina Baja represents the pinnacle of sophisticated coastal living, renowned for its elegant villas, lush green landscapes, and direct access to pristine Mediterranean beaches. This isn't merely a plot; it's an investment in a lifestyle of unparalleled luxury, privacy, and convenience, nestled within one of the Costa del Sol's most exclusive addresses.

The geographical advantage of this property is truly exceptional. Nestled in Guadalmina Baja, a revered residential area bordering San Pedro de Alcántara, the plot benefits from an enviable position merging peaceful seclusion with ultimate convenience. The pristine sandy beaches are a mere 407 meters away, offering immediate access to the sparkling Mediterranean Sea. Guadalmina Baja is synonymous with golf, with the renowned Real Club de Golf Guadalmina in close proximity. Essential family needs are met with reputable international schools nearby, and the charming Guadalmina Mall provides boutiques, restaurants, and services. The strategic location boasts excellent connectivity: the glamorous Puerto Banús is a 10-minute drive, and Marbella, the epitome of luxury, can be reached within 15 minutes. This ensures that your private sanctuary remains serene, while the Costa del Sol's vibrant pulse is always within easy reach.

This magnificent urban plot spans an impressive 6,058 square meters, providing an expansive canvas for a truly bespoke luxury villa. The generous dimensions ensure ample space for a grand main residence, extensive landscaped gardens, private swimming pools, and dedicated recreational areas, all while maintaining open space and privacy. Qualified as 'urban terrain / qualified for single-family residential' under UE-5 zoning, its purpose is clearly defined and protected. Importantly, the plot offers stunning views, being near the beach/sea, close to championship golf courses, and within reach of schools and nearby playgrounds, enhancing its appeal for families and those seeking an active outdoor lifestyle in Southern Spain.

Crucially, the building regulations for this plot present a rare opportunity for substantial development. With a buildability coefficient of 0.25%, a remarkable 1,514 square meters of living space can be constructed. This generous allowance permits the design of a grand estate, accommodating multiple bedrooms with en-suite bathrooms, expansive living and dining areas, and any other bespoke amenities one might envision for a state-of-the-art luxury home. The occupation percentage, capped at 20%, allows for thoughtful placement of the main structure, leaving ample room for stunning outdoor features defining the Mediterranean lifestyle. Further enhancing architectural freedom and privacy, the minimum plot size requirement for the area is 2,000 square meters, which this property significantly exceeds. The regulation for a 5-meter separation to borders ensures any future property enjoys significant space from its neighbors, guaranteeing maximum privacy and natural light, while also allowing for creative landscaping solutions around the perimeter.
