Nestled within the tranquil and highly desirable Los Antonios district, just below the illustrious El Limonar, this expansive 1,469 square meter development plot offers a canvas for visionary investors and developers. This exceptional offering includes not only a substantial land parcel but also an existing 81 square meter, three-bedroom house, providing immediate utility or a clear foundation for future transformation.

Discovering Málaga: Southern Spain's Gem

Málaga, the vibrant capital of the Costa del Sol, is a city experiencing an unprecedented boom, transforming into one of Southern Spain's most dynamic and culturally rich urban centers. Renowned for its sun-drenched beaches, exquisite gastronomy, world-class museums, and a rich historical tapestry, Málaga attracts discerning individuals from across the globe seeking an unparalleled quality of life and robust investment prospects. The city's strategic location, coupled with its excellent infrastructure including an international airport, high-speed rail, and a bustling port, positions it as a premier destination for both luxurious living and savvy capital appreciation.

The specific location of this property, Los Antonios, directly bordering the opulent El Limonar, represents the pinnacle of residential desirability within Málaga. This exclusive neighbourhood is synonymous with leafy avenues, grand residences, and an atmosphere of serene sophistication. Residents enjoy immediate proximity to pristine beaches, elite educational institutions, gourmet dining, and boutique shopping, all while being mere minutes from Málaga's vibrant historic city centre. This coveted address guarantees sustained demand and ensures that any development undertaken here will cater to an affluent clientele seeking the very best of Andalusian living.

An Unrivalled Development Potential

The true allure of this property lies in its extraordinary development potential. With a generous total area of 1,469 square meters, this plot stands as a rare gem in an urban landscape where large, undeveloped parcels are becoming increasingly scarce. This substantial size provides immense flexibility for a variety of high-end residential projects, ranging from exclusive detached villas to a sophisticated complex of luxury townhouses or apartments, all designed to meet the exacting standards of the luxury market.

Zone 1: The Heart of High-End Residential Development

Central to this offering is Zone 1, encompassing a substantial 970 square meters specifically designated for comprehensive residential development. This primary area is master-planned to accommodate an impressive nine distinct homes, each complemented by dedicated garage spaces, totaling nine units. Furthermore, the plans include ample provision for storage rooms, spanning 144 square meters, adding significant value and practical utility for future residents. This pre-approved density and infrastructure potential present a turn-key opportunity for developers to create a prestigious residential enclave, capitalizing on the insatiable demand for quality housing in this elite Málaga locale.

Imagine crafting a collection of contemporary luxury residences, each boasting panoramic views, state-of-the-art amenities, and bespoke finishes, all within a secure and meticulously designed community. The substantial land allows for architectural innovation, green spaces, and private leisure facilities, making it a compelling proposition for discerning buyers seeking exclusivity and comfort. The ability to develop nine distinct units within such a prime location promises exceptional returns on investment and positions this project as a landmark addition to Málaga's luxury real estate portfolio.

Zone 2: Complementary Space and Infrastructure

In addition to the primary development zone, the property includes a secondary Zone 2, a 100 square meter development plot that can serve various complementary purposes. This area, alongside dedicated road infrastructure totaling 277.84 square meters and an occupied area of 97.63 square meters, provides essential logistical support and flexibility for the overall project. This thoughtful allocation of space ensures efficient access, privacy, and the potential for additional amenities or green spaces that enhance the overall desirability and value of the development.

The Existing Residence: Immediate Value and Future Potential

An integral part of this offering is the existing 81 square meter, three-bedroom house situated on the plot. This well-maintained residence provides immediate practical benefits. It could serve as a comfortable temporary home for a developer during the planning and initial construction phases, an on-site project office, or even generate immediate rental income. Alternatively, for a private investor seeking to create a grand private estate, this structure offers a solid foundation for a comprehensive renovation and expansion project, transforming it into a magnificent luxury villa befitting the prestigious neighbourhood. Its presence adds flexibility, reducing initial holding costs and offering tangible value from day one, whether for occupancy or as part of a larger redevelopment plan.
