This substantial 223 m² property on a 121 m² plot represents a rare chance to acquire a significant asset with immense development and immediate revenue potential, all within one of Southern Spain's most sought-after coastal towns.

Strategic Acquisition: Unlocking Immediate & Future Value

This unique offering provides a calculated advantage for the astute investor. The property is available at an exceptionally attractive entry price due to specific terms: the current owner, aged 92, retains a lifetime usufruct over the ground floor, where she resides. This arrangement allows for a phased investment, mitigating initial capital outlay while securing a prime asset in a rapidly appreciating market. Ensuring seamless full ownership in due course, it provides long-term security and exceptional capital growth.

Immediate Revenue & Transformative Potential

The upper floor of this magnificent property is immediately available for comprehensive refurbishment and exploitation. Imagine transforming this expansive space into two exquisitely designed, independent luxury apartments, poised to capture the high demand for premium accommodation in Estepona. Targeting lucrative holiday or long-term rentals, these units promise swift returns, establishing revenue streams before full operational control.

Expansive Design Canvas & High-Yield Development

Beyond the existing structure, a private 121 m² rooftop terrace offers an extraordinary opportunity to craft a breathtaking solarium, sophisticated communal lounge, or bespoke leisure facilities with panoramic views. Single deed status facilitates conversion into up to four distinct, high-yield luxury apartments – two on the ground floor and two on the upper floor. Meticulously designed for modern tastes, each unit commands premium rental rates. Conservative estimates project robust rental income of at least €1,100 per apartment, exceeding €4,000 per month upon completion, establishing a powerful income-generating asset.
