The Main Residence: A Symphony of Space and Light

Step inside the grand main house, where an immediate sense of grandeur is conveyed by impressive three-metre-high ceilings, enhancing the feeling of spaciousness and light. The heart of the home is undoubtedly the spectacular living room, designed to maximize the awe-inspiring surroundings. A magnificent 180-degree window front serves as a living canvas, seamlessly blending the opulent interiors with the vibrant tapestry of nature and the endless azure of the sea. This architectural marvel invites abundant natural light, creating an airy and uplifting atmosphere throughout the day.

Dominating the living space is an imposing two-metre granite fireplace, complete with elegant glass doors, serving not only as a striking aesthetic focal point but also as a highly efficient heating source capable of warming the entire residence during cooler evenings. Comfort is paramount, and the three luxurious bedrooms within the main building are equipped with individually thermostat-controlled underfloor heating, ensuring pleasant warmth at your fingertips. This sophisticated system is powered by a large, energy-efficient solar panel array, complemented by a substantial 600-litre separate boiler, reflecting a commitment to sustainable luxury.

Each of the three generously proportioned bedrooms offers a private haven, accompanied by its own spacious, impeccably designed en-suite bathroom. The master bathroom, a true indulgence, features a sumptuous whirlpool bath – an ideal retreat for unwinding and rejuvenating after a long day, embracing a spa-like experience within the comfort of your own home.

Adjacent to this tranquil space is the spacious kitchen, a culinary haven fitted with high-quality, state-of-the-art electrical appliances, designed to cater to both intimate family meals and grand entertaining, with an adjoining utility room offering additional practicality.

Beyond the main residence, this estate distinguishes itself with remarkable versatility, presenting two completely separate granny flats. Each boasts its own private entrance, fully equipped kitchen, and two bathrooms, making them ideal for accommodating guests in utmost comfort and privacy, providing dedicated staff quarters, or offering excellent potential for multi-generational living arrangements. This thoughtful design ensures everyone can enjoy their own space while being part of the larger estate. Adding to the property's allure is a charming, completely separate pool house, positioned perfectly by the main swimming pool.
