The Canvas for Your Vision: A Generous Plot with Approved Project

This expansive 806 m² urban plot provides ample space for privacy and lush landscaping, allowing for the creation of a truly magnificent residence. What truly sets this offering apart is the inclusion of a meticulously designed and approved project for a detached single-family home. This eliminates the complexities and uncertainties often associated with plot acquisition, providing a clear and expedited path to building your ideal property. With a maximum buildability of 229.45 m², the proposed design maximizes the plot's potential, ensuring a spacious and well-proportioned dwelling.

The Bespoke Villa: Modern Luxury Meets Functional Elegance

The included architectural project envisions a stunning two-story contemporary villa, a masterpiece of modern and functional design. Every element has been carefully considered to create a home that is both aesthetically captivating and supremely comfortable. The architecture embraces clean lines, expansive glass elements, and open-plan living spaces to maximize natural light and foster a seamless connection between the indoor and outdoor environments, quintessential to the Mediterranean lifestyle.

Upon entering, you are greeted by an intelligent distribution that prioritulates flow and functionality. The ground floor is thoughtfully laid out to house generous living areas, a state-of-the-art kitchen, and potentially a guest suite or home office, all designed with an emphasis on comfort and entertaining. Ascending to the upper level reveals the private quarters, comprising four exquisitely appointed bedrooms. A true highlight is that three of these bedrooms boast their own en-suite bathrooms, providing unparalleled privacy and convenience for family members and guests alike. The master suite, in particular, is envisioned as a serene sanctuary, complete with a luxurious bathroom and direct access to private terraces.

The design extends to impressive spacious terraces on both levels, offering abundant outdoor living space for al fresco dining, sunbathing, or simply enjoying the panoramic views of the surrounding natural beauty and the distant sparkle of the sea. These outdoor havens are seamlessly integrated into the home's design, becoming extensions of the interior living areas and promoting a lifestyle deeply connected to the glorious Andalusian climate.

Exceptional Amenities: The Ultimate in Leisure and Convenience

The proposed villa project is designed to offer an elevated living experience, complete with an array of luxurious features. A substantial basement of approximately 105 m² presents an incredible opportunity for customization. This versatile space can be transformed into a secure multi-car garage, a cutting-edge home cinema, a fully equipped gym, a tranquil wine cellar, or a vibrant leisure area tailored to your specific desires. The possibilities are truly boundless, adding significant value and functionality to the property.

Crowning the outdoor amenities is a stunning private swimming pool, generously sized at 28 m². This sparkling oasis provides the perfect escape from the summer heat, offering a private retreat for relaxation, exercise, and family fun. Surrounded by thoughtfully designed garden areas, the pool area will serve as the heart of your outdoor living space, ideal for entertaining and creating lasting memories under the Spanish sun.

A Lifestyle of Privilege and Prudence: Investment Beyond Expectation

Beyond the inherent luxury and comfort, this property represents an outstanding investment opportunity. Casares Costa, and Casares Playa specifically, is renowned as one of the most sought-after and rapidly expanding areas on the Costa del Sol.
