A brand-new centralized air conditioning system, offering both hot and cold air throughout the property, guarantees optimal comfort in all seasons. The interior flooring boasts meticulously polished beige marble, exuding an air of sophistication and timeless elegance. Full visualizations based on these materials are available, and our polyglot commercial agents are on hand to provide detailed information on materials, colours, and the final finishes, with the full refurbishment expected to conclude by the beginning of July.

For added peace of mind, Luxury Realty provides full guarantees for all new electrodomestics, windows, and the air conditioning system. The infrastructure of the apartment has also been thoroughly updated: all water pipes (hot and cold) have been replaced, the electrical box is new, and 80% of all electrical cabling has been renewed. A new electrical boiler and a new air conditioning machine further underscore the comprehensive nature of this renovation. A full inventory list will also be provided to the new owner.
