Property Type: Apartment

M<sup>2</sup> Build size: 319  
Parking places: by request

Price: 1,050,000 €  
M<sup>2</sup> Plot Size:

---

**Overview:** Rare 319 m<sup>2</sup> Ground-Floor Property with 120 m<sup>2</sup> Private Terrace Near the Beach – Central Fuengirola A great investment and redevelopment opportunity in one of Fuengirola's most established and walkable central areas, just a short walk from the beach. This unique ground-floor property offers 319 m<sup>2</sup> of interior space plus a 120 m<sup>2</sup> private terrace, making it an exceptional asset for investors, developers, or operators looking for a high-potential conversion project in the heart of Fuengirola. Formerly the editorial office of Svenska Magazine, the property is currently configured as a large workspace. However, its scale, layout, ceiling height, terrace, and natural light make it particularly suitable for conversion into residential or hospitality-related use. Importantly, Fuengirola Town Hall has confirmed that the property can be converted to residential use, subject to the corresponding licence process. Based on an initial architectural concept, the space could potentially be divided into multiple residential units, with the option to include a communal workspace. This makes it especially attractive for mid-term rentals, digital nomads, boutique rental apartments, co-living, or resale after conversion. The property benefits from high ceilings, generous interior proportions, large patio-facing openings, and direct access to a substantial private terrace — features that are highly unusual for a ground-floor asset in such a central location. Located on a quiet residential street with vehicle access mainly limited to residents and very little passing traffic, yet close to Plaza de la Constitución, Fuengirola's central church square, as well as restaurants, shops, services, and transport links, the property is well positioned to benefit from strong year-round rental and resale demand. **Key Highlights** • 319 m<sup>2</sup> of interior space • 120 m<sup>2</sup> private terrace • Fuengirola Town Hall has confirmed that the property can be converted to residential use, subject to licensing • Rare ground-floor property with major redevelopment potential • Potential to create multiple residential units, with the option to include a communal workspace • Suitable for boutique rental apartments, co-living, mid-term rental use, or resale after conversion • High ceilings and flexible internal layout • Large patio-facing openings and private outdoor space • Former editorial office of Svenska Magazine • Central Fuengirola location, one minute walk to the beach, town centre, restaurants, services, and transport links • Quiet residential street with vehicle access mainly limited to residents and very little passing traffic • Strong value-add opportunity for investors and developers
