The Advantage of a Tailored Architectural Vision

As an extraordinary added value, and significantly enhancing the appeal of this opportunity, there is already an architectural project meticulously designed for a modern single-storey villa, specifically conceived for this particular plot. This pre-designed proposal alleviates the initial complexities and time commitment often associated with building a new home, offering a clear, expertly conceived blueprint ready for implementation. The proposed villa embodies contemporary elegance and functional design, perfectly integrating with the plot's unique characteristics and natural surroundings.

This thoughtfully planned villa comprises approximately 108 square metres of refined interior living space, designed for comfort and sophisticated living. The master bedroom suite is a true sanctuary, featuring a dedicated walk-in wardrobe, adding a touch of practical opulence. The heart of the home is a spacious open-plan living and dining area, seamlessly integrated with a modern, fully equipped kitchen. This expansive communal space is perfect for entertaining and family gatherings, fostering a sense of connection and flow.

Beyond the interior, the proposed design embraces outdoor living, a quintessential element of the Costa del Sol lifestyle. A sprawling 33.90 square metre terrace extends from the main living area, providing an ideal setting for alfresco dining, morning coffees, or simply unwinding while enjoying the serene views. Adjacent to this, a private swimming pool promises refreshing dips on warm days and a focal point for outdoor relaxation and entertainment. Practicality is also paramount, with a dedicated parking space for two vehicles, ensuring convenience and security for residents.
