Description

This totally renovated family home, situated within a very short walk of the centre of La Cala de Mijas and the beach, is offered on the open market at a very competitive price. The house is in a gated residential community of similar terraced houses, and has a very well maintained communal pool area. The house has a private double garage and a purpose built guest studio on the lower ground floor. Up the internal staircase to the main living area, with top notch open plan kitchen, and a very large open terrace with views to the mountains. Up again to the 1st floor, with 3 bedrooms and 3 bathrooms, including 2 ensuites. On the 2nd floor the two loft spaces have been fitted out and could be put to a variety of uses, and they open out to a lovely open air solarium with super views. But the stand out feature of this house is the quality of the renovations, some of which are on show, such as very high quality new bathrooms, electric shutters on all the windows and patio doors etc, but some of which are hidden, such as the installion of high grade sound and thermal insulation in the walls, a really luxurious addition to an already great house. Really a house that needs to be seen to be appreciated, viewings are available on short notice...
