Descripción: Stunning modern villa on 4 levels with a pre- installed private lift to all floors and situated at a high position so views are incredible. This is a very bright, luxurious property. A great view from any position in and out of the property and all glass is security glass. As you enter the double front doors you immediately feel the bright open space and take in the magnificent ocean view. This ground level has been designed as one large open space with a lounge area to your right, dining area to the left leading into a beautiful white gloss ultra modern kitchen. This is fitted with all the latest mod cons and has a dining area overlooking the garden and ocean through a wall of pure glass (no pillars to obscure the amazing view) Leading from the lounge area is another relaxing TV lounge and a guest bedroom with ensuite. On this level you also have access to the lift and a guest toilet. Walk up the amazing sweeping staircase and you will find a huge, light and airy master bedroom with his and hers matching dressing rooms and ensuite bathrooms.
